Systems Assessment and

FILE: 08-AFC-2

Facilities Siting Division

PROJECT TITLE: BEACON SOLAR

<input checked="" type="checkbox"/> Telephone	<input type="checkbox"/> Meeting Location:				
NAME:	Rachel Koss (CURE), Intervenor	DATE:	11-12-08	TIME:	5:10 pm.
WITH:	Eric Solorio, Project Manager (CEC)				
SUBJECT:	Lapse of Discovery Period				

COMMENTS:

Ms. Koss asked if the 180 day discovery period had lapsed and if so, had it been extended. I advised Ms Koss that I would research the Committee orders, consult with staff counsel and get back to her. I replied to Ms. Koss on 11-14-08 via email, stating:

Ms. Koss,

As a response to your phone call of 11-12-08, at approximately 5:10pm, I spoke with staff counsel and reviewed the project file, and I did not find a Committee Order extending the discovery period. In general, as an Intervenor you may attempt to serve discovery on any party and if they refuse your request then you're free to file a motion with the committee asking to be able to submit discovery questions. To better understand your rights and responsibilities, please refer to the Warren Alquist Act and the CEC Siting Manuals available on the CEC website and/or in the CEC library. Thanks for your call.

Respectfully,
Eric K. Solorio, Project Manager
